This is the definitive Book on this subject!By A CustomerThe Marples have done wonderful research in this catagory of collectible porcelain. They established a data base matching decors and molds to document and identify previously unidentified pieces. This book shows pieces from the "Early Years" of the Rheinhold Schlegelmilch Firm. While these are not as high priced or elaborate as the later pieces, they are treasures in

themselves. This is a well researched and written book...a must for the R.S. Prussia Collector who wants a well rounded collection.

Packed with 877 color photographs and black and white illustrations, this work details the high quality china produced by Reinhold Schlegelmilch of Tillowitz, Germany, after 1905 until World War I. Includes many items never before illustrated and new research to expand knowledge in this exciting collecting field. Included are unusual transfer patterns on R.S. Prussia tableware, decorative items, and toy china. Also included in this text are delineations of the correct relationships among the products of R.S. Prussia, R.S. Suhl, and R.S. Poland China; new information from trade catalogs; examinations of mold patterns used; a bibliography; and an index. Current market values are in the captions. Every china and ceramics collector will enjoy this thorough book.

About the AuthorThe Marples have been writing about, researching, and collecting R.S. Prussia for many years.
