embalmerladyI was relieved to find this book was not a profession-trashing expose like Mitford's tome from long ago. Instead, I found Burkhardt's book insightful and filled with practical and easy strategies to help the consumer be more in control of the funeral process. The book is compact and easy to read, well-written, concise. He highlights the importance of pre-arranging, outlines the importance of ceremony and memorialization, and stresses the need for assertiveness (not aggressiveness) on the part of the family. As a 16+ year funeral director and author, I would counsel my friends and family likewise. Excellent resource with a refreshingly objective and honest voice. 0 of 0 people found the following review helpful. Well Written and Thorough By Dr. Kitty Bickford This was a good book. Most of the chapters were short, just a few pages each, covered the topic but did not drown you belaboring a point or repeating it several different ways. R. Brian Burkhardt said it and moved on. For someone like me with a busy lifestyle, I tend to appreciate people who do not tell me how to build a watch when I ask what time it is. This author did just that and I appreciated that this 122 page book flowed easily from one idea to the next and didn't waste my time. 0 of 0 people found the following review helpful. book for ALL households -- GET it BEFORE you need it By C. Bruinsmathis is (other than the Bible) the ONE book EVERY household in the USA (and probably Canada) should have on their bookshelf. It is not a LONG read, but it can save you a LOT of money -- I had to plan funerals and buy an extra head stone by the time I was 50! One funeral, I had to do when I had just turned 20! SO, it is GREAT for ppl of ALL ages. It has a bias to it on pre payment plans, but one can make up your own mind after listening to the author's opinions and points to ponder. I had ALREADY learned (too late for me to use for the previous funerals) that one can buy discount coffins on-line. Just do a search, they ship to any funeral home quickly, for you.
