Tom Washington : Resume Power: Selling Yourself on Paper in the New Millennium before purchasing it in order to gage whether or not it would be worth my time, and all praised Resume Power: Selling Yourself on Paper in the New Millennium:

2 of 2 people found the following review helpful. Recommended readingBy Brian BigelowFor anyone hunting for a job I highly recommend this book, it's a must read. It has helped me write my resume many times over the last few years. Better yet, it's helped me to get a number of jobs, including the one I'm at now that I started working at in December when the job market really fell apart.Come to think of it that is the real test of a resume book, can it help you get a job when the job market is really bad? Take your time and read it carefully and thoughtfully, Tom really knows what he is talking about.0 of 0 people found the following review helpful. Best Resume Book Ever!!!!By Brian C. SetzlerI was lucky to meet Tom right after I graduated from college in 1985 and was starting my career and was having a difficult time landing my first accounting job. Tom gave me a copy of his book and had me work on my

resume. Each week I'd work on my resume and then meet with him for 20 minutes as he helped me hone a powerful resume. Within a few months, I actually got two simultaneous offers and was able to choose between the two landing my first job with the largest and most prestigious accounting firm in the world at that time. In the 30 years since then, I've used this book a number of times and have recommended it to 100s of others. You will not find a better book on resumes. He also has a section in the book called the "Systematic Job Search" that will make your job hunting 10x more effective. Finally, there is a page on salary negotiations. That one page has helped me get larger salaries. You owe it to yourself to get this book

Resume Power: Provides more examples, tips, and ideas on writing an effective resume than any book on the market. Shows readers in a unique and understandable way how to identify and include results in resumes. Results are the single most important factor in obtaining interviews. Walks the reader effectively through each portion of the resume and enables the reader to know exactly what to cover and what to say. Is the only resume guide that gives specific advice on each of the 18 major categories of job seekers.
