How to Write a Resume and Cover Letter That Will Get You Hired Fast!:

4 of 4 people found the following review helpful. Finally got hired!!!By CustomerAnyone who has been out of work recently knows how tough it is out there. I was really having a hard time even just getting a callback or an interview. I started to wonder whether it was time to spruce up my resume a bit which is what led me to buying this book. Well, I'm happy to say that one month after reading this book I was hired for a job that has less hours and better pay than my old one!!! YES!!! I know a lot of my success in landing this job is due to the fact that I didn't give up even when I was starting to feel discouraged. I can't take all the credit though - this book did help a lot. There were a few mistakes I was making on my resume that I didn't even realize but were probably really holding me back. The advice in this book might not be super earth shattering but it doesn't need to be. This book is an authoritative guide on best practices. It is concise, direct, and specific. After reading this book you will know exactly what to include and what not to include and also how to deal with inexperience or a lack of formal education. I recommend this book and I hope that it will work as well for you as it did for me.1 of 1 people found the following review helpful. Up to date tips for finding a job in 2017By Amar EReally helpful tips all consolidated in a single resource. My favorite part of the book were the tips for dealing with social media and new technologies that can work for you when you are finding a job. On the other hand, social media can work against you and there is all kinds of things to think about that had never even occurred to me. I recommend using this book sort of like a checklist before you apply to a job to make sure you are giving yourself the best chance to get the job.2 of 2 people found the following review helpful. Really helpful bookBy AleezAThis is an awesome guidebook and I found it very helpful. Throughout this book, I have come to know about all the essential things for perfect resume writing. Inside of this book, the author Frank Olash has described plenty of helpful techniques lessons for writing an attracting resume.
