Complete Guide to Performance-Driven Resumes:

Resumes to the Rescue introduces you to an uncommon writing style - new to resume writing - that arouses instant reader recognition. It's the style ad writers use to sell millions of dollars of goods and services every day. A style perfectly suited to tough resume tasks like getting into competitive training programs, gaining an internship that everybody else wants, and the hardest of all: changing careers (with 11 changing-careers resumes that brought new careers to their writers). And that's only the beginning of the many ways this remarkable writing style can help you

break through the multitude and cut your job hunting time by half. You need only have the desire to do so. 100 authentic, performance-driven resumes Included are 100 highly readable, incredibly successful resumes - in dozens of job categories - that brought truly unmatched results, often in just one or two weeks. These are actual resumes that customers of Stan Wynett Resumes paid thousands of dollars to Stan and Jon Wynett to help them write. Employers will read you faster, like you more, understand you better and remember you longer. Positively. Wherever you look in Resumes to the Rescue, you'll see bold innovation in resume format, writing and style - in a domain where resume format and writing style haven't changed in 40 years. You'll save hours of pain in preparing your resume, and you'll lure far more responses than you ever dreamed possible. Employers will be irresistibly attracted to your resume, like iron filings to a magnet, instead of being bored stiff. We guarantee it.

About the Author Stan and Jon Wynett, co-authors of Resumes to the Rescue, are a father-and-son copywriting team who, in one year, became the biggest resume-writing firm in New York City.
