AA Publishing : Road Map Italy (Road Map Europe) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Road Map Italy (Road Map Europe):

4 of 4 people found the following review helpful. Richly Detailed Road Map of Italy By Fora Porto! This is a very complete road map, given that it's covering the entire country, and is also relatively up-to-date-- it came out in 2013. It includes not only Sicily but Sardinia as well. Northern Italy takes up one side, with southern Italy on the reverse. My only complaint has to do with the map key. The key is marvelously detailed, covering not just the standard roads and highways, towns and cities, etc., but also has different, easy to read symbols for Phoenician, Etruscan, Hellenistic and Roman ruins, Romanesque, Baroque and Byzantine churches, and practically anything else a visitor to Italy can imagine seeing. The legend describes each symbol in English, German, French, and Dutch... but not in Italian! Granted, it's a map for tourists, but as a prospective tourist, it would certainly help me if the legend were to give me the Italian names as well, to help me recognize them on street signs. I also suspect that tourists from the far north of the country, from Milan or Venice, might sometimes visit the far south of Italy as tourists, and vice versa. And thus the loss of the star, from what would otherwise be a five star product. 8 of 8 people found the following review helpful. This is a huge map. A little hard to ... By chrisofsc This is a huge map. A little hard to work with but it certainly shows all the roads in Italy. 0 of 0 people found the following review helpful. Five Stars By El Guapo Best one I've seen... clear, concise, coated for rain use.

With a 1:800,000 scale (1cm to 8km), this road map features eight city and town plans, and a place name index.

About the Author AA Publishing is the UK's largest travel publisher, with an extensive range of inspiring travel guides, dependable driving books, and trusted maps and atlases.
