Robert L. Chapman : Roget A to Z before purchasing it in order to gage whether or not it would be worth my time, and all praised Roget A to Z:

0 of 0 people found the following review helpful. Best Thesaurus EVER! By my 2 cents I don't know how it happened, but my copy of this Thesaurus somehow walked right off the bookshelf and out of my house! This is my GO TO book when I'm writing and without it I feel so lost! I've tried online Thesaurus' and they just don't come close to this! I searched but I only knew it by Roget Thesaurus and what the bookjacket looked like. Sadly, there were countless Thesaurus that matched my search without pix. So, I found myself searching and searching various used book sites (for some reason the cover art didn't come up on so I couldn't find it here) when I FINALLY recognized the cover

art..yay! I clicked on the link and what do you know? It brought me back here to ! WTH? Anyway, I'm thrilled to have found another copy! It's awesome because along with all the traditional words, it also includes a lot of slang that more traditional Thesaurus don't have! Alas, I can write again!!!! Hurry ! Please ship my Thesaurus. After all, it's the least you can do since you didn't show it on your site and sent me on a wild goose chase to find it! =0)3 of 3 people found the following review helpful. Quite a breakthru in TheasurusBy A CustomerI am currently a high school student in Singapore and sometimes find English a difficult subject to tackle. The Roget A to Z can achieve something that a Dictionary cannot. Yet it is much easier to use comparing to other theasurus. It is listed in alphabetical form and so there is no difficulty looking for a word. I mean it is a must to buy it if you want to learn English seriously. But I don't understand why my teacher prefer the Penguin Roget's Theasurus. It is small and contains nothing. Maybe my teacher is just not ready for a revolution in theasurus!

For those who prefer a thesaurus in dictionary form, here's the best, based on the complete and in-depth databse of words and phrases that produced the world's bestselling thesaurus. Features more than 300,000 words--arranged in easy-to-use alphabetical order, plus slang words, clusters of comparison words, common foreign words, and more, all in an easy-to-read type. Thumb-indexed.

About the AuthorDr. Robert L. Chapman, the founding editor of the Dictionary of American Slang, was a professor of English at Drew University.
