By busybeedspI checked this book out of the library first and have just ordered it. It tells you how to write a short resume to get you out there and job hunting right away. Then, it tells you how to expand your basic resume and to specialize it. It shows you samples on different formats and for different job types. I am glad the library had it for me to read first, so that I knew it was something up to date and helpful.

Writing a resume does not have to be a cumbersome, tiring affair. With the help of Same Day Resume, job seekers can write an effective resume in just an hour.
