ITMB Canada : Santiago de Chile 1:12,500 Street Map Central Chile 1:720,000 Travel Map (International Travel Maps) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Santiago de Chile 1:12,500 Street Map Central Chile 1:720,000 Travel Map (International Travel Maps):

5 of 5 people found the following review helpful. Incomplete Street IndexBy Randall R. ScottWhile the map has almost all historical and tourist locations as well as all the metro stops, the street index leaves something to be desired. Some streets that begin with the letter P and many streets that begin with the letter R are missing from the index. The street index jumps from PUE DE LAS CLARAS to RIVAS (EST CENTRAL). You will need a digital map app to supplement this folding map. In addition to locations of all metro stops on the larger map there is a smaller metro map for easy use in congested quarters.0 of 0 people found the following review helpful. Nice map printed on worthless paper, will come apart immediatelyBy Mary Ellen FloresWhile the detail and colors are good, the map crease tore upon first opening the map. I am currently using a commercial map sealant trying to rescue this map. The paper this map is printed on is like tissue paper. Perhaps it is recycled paper. In any case, this is my first and last time buying a map from this particular company. Save your money, find another map company.0 of 0 people found the following review helpful. Disappointing and unusableBy Kathleen EdelmuthThis is the worst travel map I have ever had the experience of trying to use. The street index is very inaccurate. I had to go online to find the hotel I wanted to find. This map was off by many many inches on the location. It is huge and unusable because of its size. And, after one folding it has torn folds. Since there is not one out there from Streetwise I was desperate. I will wait to get to Santiago and get one. This one is not making the trip with me.

Double sided map includes a street map of enlarged central Santiago with points of interest clearly marked, comprehensive street name index and two insets: a Metro system plan and the environs of Santiago as far as to the coast. The reverse side shows a travel map of central Chile stretching from Combarbala (Region IV) in the north to Los Angeles (Region VIII) in the south. This side also includes an inset with a hiking map (1:38,000) of the southern tip of Easter Island.

About the AuthorITMB is a leading publisher of travel maps including a large series of country, regional and city maps on Latin America.
