This would be a GREAT map, IF By T.Jay This would be a GREAT map, IF: They had North on the top of the page, and South and the bottom (noted by others). This is FRUSTRATING to someone who has used maps his whole life. It got us lost a few times! Love/Hate this map! 1 of 1 people found the following review helpful. I enjoyed the graphics as well the building and location information By shopgirl240 This map helped so much on our recent trip to Savannah. I enjoyed the graphics as well the building and location information. The only confusing part is understanding the compass direction for navigation. The directions are not in the normal positions, so it just gets some time to get used to the flipped around version. It was compact enough, where I could fold and carry it in my purse. The paper is very durable and help up to constant use of open the map, and then re-folding it as well. 2 of 2 people found the following review helpful. Excellent map for Visitors By Michael Slayton We rented an apartment for four nights and used this continually for all our walking tours about town. It was also helpful on our visits to the general vicinity. We highly recommend it to you for your Savannah visit.

All three of our highly popular Savannah Illustrated Maps come folded at 4x9" and open up into vibrant poster-sized illustrations at 18x27". They are chock full of the best attractions, historical factoids and useful information for your visit to The Most Beautiful City in North America. If you enjoy Savannah's rich history, famous figures, and elaborate architecture, then be sure to get our bestselling SAVANNAH HISTORIC DISTRICT ILLUSTRATED MAP. Do you like ghost stories, paranormal activity, and strange tales of the macabre? Then you'll love our HAUNTED SAVANNAH ILLUSTRATED MAP a must-have when touring America's Most Haunted City. And if you're planning a visit to the historic outdoor museum of Bonaventure Cemetery in Savannah, do not enter without our BONAVENTURE CEMETERY ILLUSTRATED MAP, or you're guaranteed to get lost. Note on compass: NORTH is on the bottom of the Savannah Historic and Haunted maps because of the historical significance of the riverfront area. This area is what draws over 13 million visitors each year and what has turned the city around economically since the late 1970s. Illustrative maps of other cities move compass directions when there is a specific tourism area that needs to be marketed to. There would be no Savannah Historic District if not for those businesses along the river. It's where her riches came from dating back to the early 1700s. A vast majority of the incredible 19th century birds-eye-view maps of Savannah also show her in this non-traditional, north on bottom, format. Once you get your orientation adjusted, this map is all you'll need for wayfinding. Note on DOT routes: The free DOT shuttle and bus routes on the back of the Savannah Historic and Haunted maps were changed by the city after the maps were printed. Please visit [connectonthedot.com](http://connectonthedot.com) for the latest routes. Once our map inventory is depleted, we will update the printings with the new routes.
