National Geographic Maps - Reference : Scandinavia Classic [Tubed] (National Geographic Reference Map)
before purchasing it in order to gage whether or not it would be worth my time, and all praised Scandinavia Classic [Tubed] (National Geographic Reference Map):

3 of 3 people found the following review helpful. Excellent detail
By B. Jamison
The map, printed in 2013, provides great detail of Scandinavia and the Nordics. As other customers have stated, there's also tremendous detail given to the Baltic nations. While not part of Scandinavia, they (especially Estonia) share some overlapping histories, and I found their inclusion a bonus. My only (minor) issue with the map is that it provides detail of Denmark's Faroe Islands, Norway's tiny Jan Mayen island, but not Svalbard, Norway's Arctic archipelago. Seems a bit strange to include the former but not the latter, as Svalbard is a somewhat popular tourist destination. All in all, a good map.
0 of 0 people found the following review helpful. Excellent. Just what we needed
By M. Eileen Fawcett
Excellent . Just what we needed!
6 of 6 people found the following review helpful. Good map
By L. Forbus
Went to Norway this summer so

bought this to study were I was going. It was very accurate and detailed which made a difference since I was going to smaller towns

National Geographic wall map of Scandinavia is one of the largest and most detailed maps of the region. The signature Classic style design uses a bright, easy-to-read color palette. This map features thousands of place names, accurate political boundaries, national parks, and major infrastructure networks such as roads, superhighways, airports, canals, ferry routes, and high-speed and passenger railroads. The regions diverse terrain is detailed through accurate shaded relief, coastal bathymetry, and symbolism for water features and other land forms. Elevations of major peaks and depth soundings are expressed in meters. Inset maps provide detail of Iceland, the Faroe Islands, and Jan Mayen. In addition to Norway, Sweden, and Finland, coverage includes Denmark, Lithuania, Latvia, Estonia, and Kaliningrad Oblast. The map is packaged in a two inch diameter clear plastic tube. The tube has a decorative label showing a thumbnail of the map with dimensions and other pertinent information. Map Scale = 1:2,765,000 Sheet Size = 23.5" x 30.25"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
