**Joseph Edminister : Schaum's Easy Outline of Electromagnetics** before purchasing it in order to gage whether or not it would be worth my time, and all praised Schaum's Easy Outline of Electromagnetics:

1 of 1 people found the following review helpful. very goodBy eddieI first saw this book in the library, and went on to purchase this book for my personal reference. this book has helped me in school.0 of 0 people found the following review helpful. Good for a quick refreshBy TonyThis is very good bookif you are looking for a quick refresh or very basic electromagnetic theory review. Good to pass basic tests, but you need to get another book with more practice

problems.

Boiled-down essentials of the top-selling Schaum's Outline series for the student with limited time What could be better than the bestselling Schaum's Outline series? For students looking for a quick nuts-and-bolts overview, it would have to be Schaum's Easy Outline series. Every book in this series is a pared-down, simplified, and tightly focused version of its predecessor. With an emphasis on clarity and brevity, each new title features a streamlined and updated format and the absolute essence of the subject, presented in a concise and readily understandable form. Graphic elements such as sidebars, reader-alert icons, and boxed highlights stress selected points from the text, illuminate keys to learning, and give students quick pointers to the essentials. Designed to appeal to underprepared students and readers turned off by dense text Cartoons, sidebars, icons, and other graphic pointers get the material across fast Concise text focuses on the essence of the subject Delivers expert help from teachers who are authorities in their fields Perfect for last-minute test preparation So small and light that they fit in a backpack!
