Frank Garcia, Mark Phillips : Science Fiction Television Series, 1990-2004 before purchasing it in order to gage whether or not it would be worth my time, and all praised Science Fiction Television Series, 1990-2004:

This is a detailed examination, from creation to cancellation, of 58 science fiction television series produced between 1990 and 2004, from the popular The X-Files to the many worlds of Star Trek (from The Next Generation onward), as well as Andromeda, Babylon 5, Firefly, Quantum Leap, Stargate Atlantis and SG-I, among others. A chapter on each

series includes essential production information; a history of the series; critical commentary; and amusing, often provocative interviews with more than 150 of the creators, actors, writers and directors. The book also offers updates on each series' regular cast members, along with several photographs and a complete bibliography.
