Great book, saved me tons of moneyBy EarthlingThis book is easy to read and very very informative. The information is accurate and I was able to save money and be in much better negotiation position with the finance manager since I knew his lingo. The interest rate was the best they could offer and the purchase was quick, since thanks to this little gem, I knew what documents they were going to need and had them with me.

We've all heard it. Good credit, bad credit, no credit... no problem. Divorce, bankruptcy, repossession. Re-establish your credit... we finance anyone. What does it all mean? How does it work? What kind of car can I buy? How much down payment do I need? Will I get ripped off? This book will answer these questions, and more, in an easy to understand, simple format.
