Great Inspiration for Themed Gift Giving!By MusicianI really like this book and it has inspired me to create some beautifully themed and wrapped gifts. The ideas I got were not copied directly from her book, but the ideas in her book were sort of a jumping point to get me thinking about themed gifts, specially thought out wrapping, and "gift giving" even on the small occasions when a friend is sick, or just because. I always get great comments on my gifts and how they are presented and I have this book to thank :) Maybe if you are ultra creative on your own, you won't need this book, I personally enjoy the eye candy and it really gets me thinking creatively and outside the box.0 of 0 people found the following review helpful. Inspiration Personified!By Eternal GifterI have purchased read every book written by Rachel. This one, I think I've read it at least 5 times cover to cover - it's so inspiring. And the projects ... anyone can replicate them. But let them inspire you to think outside the box. I look at everything differently now when I'm out at the flea markets or in the antique malls or even shuffling around a garage sale. This book adds a new dimension to designing, creating, entertaining and gifting. A true keeper!

Rachel Ashwells newest book, The Shabby Chic Gift of Giving, shows how to apply the elegant, practical Shabby Chic style to the art of gift giving. With beautiful, fullcolour photographs in an innovative format, Ashwell shows readers how to pick the perfect gift, wrap and decorate it with style, and create the perfect setting in which to give it. Full of yearround gift ideas with sentiment and beauty.
