Alexander Schmidt : Shakespeare Lexicon and Quotation Dictionary (Volume II, N-Z) before purchasing it in order to gage whether or not it would be worth my time, and all praised Shakespeare Lexicon and Quotation Dictionary (Volume II, N-Z):

1 of 1 people found the following review helpful. this is a lexicon -- a dictionary including every word ...By Rick Gatesthis is a lexicon -- a dictionary including every word Shakespeare ever used; invaluable, as some of the words are archaic and have no current meaning to us, while others have variable meanings that make them work on many levels in many different ways0 of 0 people found the following review helpful. Quite handy!By LauraHandy for looking up

quotes one sees or hears. Most of the ones I've needed to look up are here. 0 of 0 people found the following review helpful. Happy! By Katrina Informative, concise!!!

In more than 300 years of Shakespearean scholarship, only one book, the famous Shakespeare Lexicon and Quotation Dictionary, has investigated the meaning of every word that Shakespeare wrote. The lifetime work of Professor Alexander Schmidt of Knigsberg, this book has long been the indispensable companion for every person seriously interested in Shakespeare, Renaissance poetry and prose of any sort, or English literature. It is really two important books in one. Schmidts set contains every single word that Shakespeare used, not simply words that have changed their meaning since the seventeenth century, but every word in all the accepted plays and the poems. Covering both quartos and folios, it carefully distinguishes between shades of meaning for each word and provides exact definitions, plus governing phrases and locations, down to the numbered line of the Cambridge edition of Shakespeare. There is no other word dictionary comparable to this work. Even more useful to the general reader, however, is the incredible wealth of exact quotations. Arranged under the words of the quotation itself (hence no need to consult confusing subject classifications) are more than 50,000 exact quotations. Each is precisely located, so that you can easily refer back to the plays or poems themselves, if you wish context. Other features helpful to the scholar are appendixes on basic grammatical observations, a glossary of provincialisms, a list of words and sentences taken from foreign languages, a list of words that form the latter part of word-combinations. This third edition features a supplement with new findings.
