Sally Morgan : Sharks (A) (Encyclopedia 128) before purchasing it in order to gage whether or not it would be worth my time, and all praised Sharks (A) (Encyclopedia 128):

1 of 1 people found the following review helpful. TYPOS!By 6yroldsmomMy son loves this book, but it is full of typos! Random commas, misspelled words, and numbers that are missing digits or have added zeros so that they make no sense. It is otherwise very fun to read with a child who loves sharks, but the typos make it difficult for a new reader. Please proofread next time!
