Our 6 year old son loves animal life... especially sea life. This book is great because it is filled with amazing large colorful high profile photos of each predator (Over 200 of them). We especially like the "Data File" on each one which gives you the Predator Profile, Size, Diet and other cool facts. Reminds me a lot of the Super Hero trading cards I had growing up, but instead of fictional characters these are real life sea creatures. As my son always says when reading this "Look at this one, so coooool". 0 of 0 people found the following review helpful. Great book!!! By Margarita My daughter checked this book out from library and didn't want to return it. We went to a shark show and learned so much about sharks. I was so surprised how much she knows about sharks. She

loves anything animal related and that's because she is passionate just like her mama. Lol...0 of 0 people found the following review helpful. My son loves sharks and definitely loves this book. ...By RyanMy son loves sharks and definitely loves this book. He keeps showing me pictures of different sharks and, I gotta say, it is really interesting. I've learned quite a bit from this book.

Dive into *Sharks and Other Deadly Ocean Creatures Visual Encyclopedia* to discover everything there is to know about the ocean's biggest predators. Brought to life with cutting-edge CGI technology, more than 200 sharks and fierce fish are featured in highly visual profiles. From great white sharks to barracudas, children can explore dangerous waters with age-appropriate texts and photographs. Compare different ocean habitats, body sizes, tails, and more in the eight chapters that cover the different classifications of sharks, including bullhead sharks, ground sharks, and carpet sharks. Find out why they are called tiger sharks, discover how long frilled sharks' pregnancies last, and see why a hammerhead shark's head is shaped that way. Learn which sharks live in salt water, which sharks live in fresh water, and which sharks can live in both! Read amazing shark facts about anatomy, behavior, and habitats, and find key information at a glance with data boxes, facts, and figures laid out in DK's signature style. Joining DK's award-winning Visual Encyclopedia format, *Sharks and Other Deadly Ocean Creatures Visual Encyclopedia* is the ultimate one-stop reference book for everything shark.

"Kids will love poring over the wide array of animals captured within its pages." Booklist
