I love all Shirley's books but especially like this one By LizBDI purchased this book for myself when it first came out, and just bought another as a gift for a friend. I love all Shirley's books but especially like this one. Whenever I open it and start turning the pages it is like visiting a favorite gallery. As several people mentioned this is not a "how-to" book, but it's impossible to look at her amazing paintings and not learn something. 0 of 0 people found the following review helpful. Five Stars By Arlette Twedt Love Shirley Trevena's loose painting and abstract. Wonderful book with great photos of her work. 0 of 0 people found the following review helpful. I enjoyed the commentary with the paintings By Customer Not an instructional book but does not claim to be. I enjoyed the commentary with the paintings, and it is still possible to learn just from studying the paintings.
