**Shogakun : Shogakukan Progressive English-Japanese Dictionary (Japanese Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Shogakukan Progressive English-Japanese Dictionary (Japanese Edition):

0 of 0 people found the following review helpful. Keep in mind this is the English Romanjii to Japanese translation. It's OKBy CLMGreat book for Japanese Student, gave it to a friend of mine for a gift.This is not my favorite way to translate the Japanese language. I'd recommend the Progressive Japanese - English versionwhere you actually translate Hiragana to your English definition over this version. Keep looking and you'll find it on . I purchased it as well.This will do the job, but you must learn the Hiragana to really know what it is you are doing with the language, without it - You are only fooling yourself.
