Scott Vedder : Signs of a Great Rsum: How to Write a Rsum that Speaks for Itself before purchasing it in order to gage whether or not it would be worth my time, and all praised Signs of a Great Rsum: How to Write a Rsum that Speaks for Itself:

4 of 4 people found the following review helpful. A fantastic book from cover to coverBy JBurtonI have to be honest; Signs of a Great Rsum is a fun book from cover to cover. At first, I was skeptical. I mean how fun could a resume

book be. However, I was pleasantly surprised by how much I was entertained and learned from reading this book. I will admit I have used rsum companies to get that killer rsum in the past, but now I no longer need those companies. I will use Scott Vedder's book, which provides the same result at a quarter of the price. It is hard to pick my favorite aspects of the book, but I really enjoyed the overall tone of book. There were humorous and real life stories sprinkled through the book. I also felt the rsum examples provided the reader with a great visual of what you want and do not want to achieve out of your rsum. Lastly, I would use this book with my students. As a high school English teacher, I think this book is invaluable to teenagers who are new to the job hunt. 1 of 1 people found the following review helpful. Great purchase

By D. Williams Scott came into one of my university classes a couple of weeks ago and did a great thorough presentation on rsums that really resonated with us. As a member of a professional organization, we've done countless rsum workshops and you quickly learn that many are the same packaged in diff words, or just small things that vary from person to person and you rarely pick up anything truly valuable. His !@#\$\$ method however, amongst other tips actually had me excited to overhaul my entire resume and make it quantify me with numbers and percents, but also "read like me" to where my personality actually showed. So I picked up his book. Its not a bad read, very portable to carry around but packed with specific information minus the filler. The book had way more information than his presentation, and I once again found myself revamping my rsum with specific information and deleting the filler. I nailed the 2013 Internship Fair and landed an interview this Friday. I did this with a personalized cover letter that really put me over to the top thanks to this book. I had never even thought to do a Cover Letter before, and frankly thought they were too formal for me, but his book laid out the entire process I believe I was the only student in the entire fair that was armed with one, and as I go to one of the largest universities in the country, separating yourself from the next guy is so important. This book really works! Thank Scott

1 of 1 people found the following review helpful. This book is a can't miss if you want to make yourself and your resume shine! By Kris V This book is amazing and I highly recommend it to anyone who either has no clue of how to update a rsum (me!) or those who just need a little touch up/new perspective! I am in the midst of a career change and Mr. Vedder's book allowed me to restructure my rsum (in less than 2 days) in a way that highlighted all of my skills while still incorporating my experience. The information in his book is very easy to understand, apply to your rsum, and makes you laugh. I also love the end of the chapters, when he gives examples of what your rsum should look like. This book gives you the chance to make your rsum stand out from the rest. My rsum has such a better flow and highlights everything I want my prospective employer to know about my skills- all on 1 page! Thanks Mr. Vedder! I look forward to your Signs of a Great Interview!

Your rsum should be full of !@#\$\$%. Just ask Scott Vedder. Scott has developed a simple way to make your rsum speak for itself, using !@#\$\$%, the Signs of a Great Rsum. Each sign showcases your experience and skills and highlights your greatest achievements and contributions. ! Any part of your experience that was amazing! @ Defining points, places, dates and things in your career # Numbers that quantify and prove your past successes \$ The dollar value of your contributions % Figures that easily show growth and results Whether you're a recent grad or a CEO, a garbage collector or an astrophysicist, you can use Signs of a Great Rsum to make your experience shine and recruiters love to see some nice, shiny experience on a rsum! In this book you'll learn how to customize your rsum for each job using !@#\$\$%, how to write a great cover letter and more. So what are you waiting for? Buy this book and get to work!

About the Author Scott Vedder worked as a recruiter at a Fortune 100 company where he reviewed countless rsums and conducted over 5,000 interviews. He quickly discovered that a good rsum is truly hard to come by and that most applicants don't have a clue what recruiters want to see. Scott makes it simple and fun to write a rsum that speaks for itself.
