Mary Queen Donnelly : Skills for Consumer Success (with CD-ROM) (Title 1) before purchasing it in order to gage whether or not it would be worth my time, and all praised Skills for Consumer Success (with CD-ROM) (Title 1):

0 of 2 people found the following review helpful. HorribleBy nonsenseThis is absolutely the worst text book I have ever read. It spends more time telling ridiculous stories about fictional people than it does giving proper information about the subject. Worst of all, the information is horribly outdated. If you want to learn anything about consumer economics in a sensible, well explained format, buy any book besides this one.1 of 1 people found the following review helpful. a.k.a. Skills for LifeBy K. Pereles-StricklerAs textbooks go, this one was amazing. Not only was it helpful for the online class, but also it was full of detailed explanations about everything from the basics of balancing a checkbook, to opening own's own retirement account, to basic stock market accounting. I found the examples helpful and the text itself enlightening. I highly recommend this book and am glad to have it in my library as a consumer

reference.

Skills for Consumer Success provides the users with information about their roles in the marketplace and how to sharpen their consumer skills. The text presents the process of opening a checking account, renting an apartment, applying for credit, looking for a job, buying a car, and paying taxes. Students learn the activities necessary for financial management and independence as they work through the text.
