Janet Zand (Author) James B. LaValle (Author) Allan N. Spreen (Author) : Smart Medicine for Healthier Living : Practical A-Z Reference to Natural and Conventional Treatments for Adults (Paperback) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Smart Medicine for Healthier Living : Practical A-Z Reference to Natural and Conventional Treatments for Adults (Paperback):

0 of 0 people found the following review helpful. Five StarsBy M C. KrauseGreat book, great quality, shipping time as expected0 of 0 people found the following review helpful. The Best Reference Book AroundBy H. M. HadleyThis is a great reference book for a big variety of common health problems and because it's so easy to use, I refer to it with confidence. The table of contents is alphabetical, which makes it simple to look up exactly what you want without hunting through the book. Then when you find the condition you're looking for, it gives you a description of the symptoms, followed by an outline of how it is usually treated with Western medicine. After that, there's a whole bunch of useful dietary suggestions (what to avoid and what to eat), and a very thorough list of Nutritional supplements: what to take, what it does, and how much per day. This is followed by suggested alternative therapies, such as Herbal Treatments, Homeopathy, Bach Flower Remedies, Acupressure, Aromatherapy, and General Recommendations. Finally, there is information on Prevention. Everything is clearly explained in straight-forward English and at no time is there any sales talk involved. The authors are not trying to sell you their books, their supplements, or anything else. However, if you are looking for suppliers, there's a list in back in the Resources section. Yes, you could find all this

information in bits and pieces by hunting through the Internet, but then you'd have to put up with websites filled with annoying ads and questionable remedies being touted by "doctors" pushing their products. This book is the information you need and nothing else on the side. Highly recommended!
