Again, this isn't a massive problem, but will cause some issues as most research sites are in the English translation.0 of 0 people found the following review helpful. From the Isthmus of Panama to the southern reaches of Cape Horn, National Geographic's wall map of South America combines beauty with function. The Classic style map uses a bright color palette featuring blue oceans and stunning shaded relief that has been a signature of National Geographic wall maps for over 75 years. Political boundaries are clearly defined, and place names, airports, major roadways, and other geographical features are easy to read. Ocean features and currents, as well as depth curves and soundings add context to the continent's extensive coastline and the diverse human populations that inhabit those shores. Coverage includes the countries and major cities of Argentina, Bolivia, Brazil, Chile, Colombia, Ecuador, Guyana, Paraguay, Peru, Suriname, Uruguay, and Venezuela. The map is packaged in a two-inch diameter clear plastic tube. The tube has a decorative label showing a thumbnail of the map with dimensions and other pertinent information. Map Scale = 1:11,121,000 Sheet Size = 23.5" x 30.25"
