The cards themselves are made out of nice heavy card stock,... not cheap and flimsy. The pictures are great! There are a few that to me are just 'meh' but I would say out of 100 there are only 5 or 6 pictures I thought were so-so, the rest I love! It will be hard to send some of these out! For the Pixar collectors, this is a nice set and they arrive in a really cute storage box. The box I received had a slight dent on one side, but for the most part it looks pretty good. I love Pixar movies and these postcards are really cute, happy with my purchase! :)0 of 0

She enjoys the fun quick notes she gets in the mailbox now. Postcards are study and drawings are great. Have some great scenes from some of Pixar's best movies.0 of 0 people found the following review helpful. Love them. Large selection and well crafted.By Doctor G.I got these to use for corresponding with our 5 year old grandson. He lives on the west coast of Florida and we live on the east coast. We write a letter and enclosed a self addressed stamped postcard from the amazing collection in the box. Then, his parents help him read the letter and write us a post card. It was the easiest for them and we want to let him know we miss him. I also remember how much I used to love snail mail and pen pals. Hopefully, we will be able to maintain his interest, or capture it. The postcards are helpful because they are geared to his age.

Celebrate the 20th anniversary of Pixar Animation Studios with film and concept art from every Pixar feature-length and short film to date.
