I like its presentation better than any other picture dictionary I've seen. This is a wonderful new edition of only the most basic vocabulary; excellent for someone brand new to English. Oxford's other picture dictionaries are more thorough, but can be overwhelming for the same reason. This is what it promises: basic. There are minor changes from the first edition, such as some illustrations, but both the 1st and 2nd editions are excellent teaching tools for the ESL professional, or learning tools for self-taught students.P.S. I wish the other reviewers hadn't rated it so poorly. This is the MONOLINGUAL edition (English only), not Creole. Hopefully will sort out the confusion.2 of 2 people found the following review helpful. Oxford picture encyclopedias

As with others in the Oxford series, the pictures are very high quality, geared toward the daily lives of real people in everyday situations. Would recommend without reservation.Arrived on time, in excellent (brand new) condition. Would purchase from this seller again.1 of 1 people found the following review helpful. This Picture Dictionary brings together language and pictures used in everyday English. It really helps the learning process.
