**Margot F. Gramer : The Basic Oxford Picture Dictionary, Second Edition (Monolingual English)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Basic Oxford Picture Dictionary, Second Edition (Monolingual English):

I like its presentation better than any other picture dictionary I've seen. This is a wonderful new edition of only the most basic vocabulary; excellent for someone brand new to English. Oxford's other picture dictionaries are more thorough, but can be overwhelming for the same reason.

This is what it promises: basic. There are minor changes from the first edition, such as some illustrations, but both the 1st and 2nd editions are excellent teaching tools for the ESL professional, or learning tools for self-taught students. P.S. I wish the other reviewers hadn't rated it so poorly. This is the MONOLINGUAL edition (English only), not Creole. Hopefully will sort out the confusion.

By Lawrence David Farrell  
What can I say? My adult ESL students love this book. As with others in the Oxford series, the pictures are very high quality, geared toward the daily lives of real people in everyday situations. Would recommend without reservation.

Arrived on time, in excellent (brand new) condition. Would purchase from this seller again.

By Pat  
I am presently tutoring a Spanish speaking man and he is very dedicated in his efforts to speak, read and write English. This Picture Dictionary brings together language and pictures used in everyday English. It really helps the learning process.

1,200 everyday core vocabulary words are included which reflect the immediate language needs of beginners. This edition contains exercises on every topic. Nouns, verbs, verb phrases and adjectives are included and a set of three Dictionary Cassettes features a reading of all the vocabulary items in the dictionary.
