David Day : The Battles of Tolkien before purchasing it in order to gage whether or not it would be worth my time, and all praised The Battles of Tolkien:

4 of 4 people found the following review helpful. The book is pretty and it's got some really fun pictures By Nathan T. The book is pretty and it's got some really fun pictures. However, it is also full of typos and mistakes. The maps in it are not very clear, which granted the author explains why at the beginning, but he didn't explain that in almost all of the maps some of the symbols in the key are wrong. (Looking at you orcs and the Balrog mix up.) There were also a few factual issues where the author says something that is not true to the histories of Middle Earth. The final issue is

that in a book entitled "The Battles of Tolkien" you'd expect him to actually talk about the battles. He seemed more interested in explaining the historical and mythical background to the story as opposed to the actual events and timeline of the battles. If you want a good book to explain the battles and timeline of Middle Earth I would recommend "The Atlas of Middle Earth". 5 of 6 people found the following review helpful. Good luck getting the STICKER off the back! By Mr. BI discovered David Day's books in a bookstore in Iceland, came home and bought all three: The Dictionary, Atlas, and Battles. I'm quite in love with them, but posting primarily to let folks know about the sticker on the back. I'm a bit put out that I damaged the back of at least one of the leatherette covers in order to get the sticker off. Who does that to a good book (or any book for that matter)?! Books are considered a treasure by many and the big, sticky sticker on the back cover is a way of defacing them. The books, on their own, would merit five stars, but as sold through , only four, since I believe the cover, binding, and print, etc. should be considered. They all came this way, so that's clearly how they're sold through . Buyer beware. 0 of 0 people found the following review helpful. Any fan of Tolkien will want to read this! By Dad of Divas This was a beautiful book! As a person that has been a HUGE fan of the Tolkien books in the past I was looking forward to reading this. The book is definitely a collectible and the leather-bound book contains images that were stunning too. I found the book to be very interesting and the author's insights really were eye-opening and ones that I had not thought of in the past. You will gain a better understanding of the Tolkien world as well as a great understanding of the characters, battles, weapons and more. Any fan of Tolkien will want to read this!

The history of J. R. R. Tolkien's fictional world of Middle-earth is filled with epic battles in an ongoing struggle between good and evil. The Battles of Tolkien recounts many of the greatest conflicts over thousands of years, from the earliest skirmishes of the Valarian Ages to the defining battles in the War of the Ring. Insightful commentary by Tolkien scholar David Day discusses how the people, tactics, and weapons influenced the outcome of each battle, and also how the legends of Middle-earth relate to the real-world mythology on which Tolkien based his famous literary creation. Maps and full-color illustrations help bring this rich universe to life, making it an invaluable reference book for Tolkien fans of all ages. This work is unofficial and is not authorized by the Tolkien Estate or HarperCollins Publishers.

About the Author David Day is the author of five major books on the world of J.R.R. Tolkien, including "Guide to Tolkien's World: A Bestiary" and "A Guide to Tolkien." Together with "Tolkien: The Illustrated Encyclopedia," these books have been translated into sixteen languages, and have sold in excess of two million copies. A Canadian living in Toronto, Day has also published over thirty other books of mythology, history, fantasy, fiction, and poetry, for both adults and children. "
