Sullivan, I think I spent more time memorizing their music than studying my homework (although I kept my grades up); but as I turned the pages of this book, presented chronologically from 1963-1996's Anthology III, all the songs came back to me and I found myself laying out all my albums, at first, and then my CD's, since most of my albums are worn out. All of the songs are there, from "Love Me Do" to "The End" from Abbey Road. At the age of 56, my sister and I finally were able to see Paul McCartney in concert and sing along like we'd wanted to back in 1965 when the Beatles came to San Francisco and our parents took us camping in the California Redwoods (they were no fools). Alas, John and George are no longer with us, but my sister and I are planning to see Ringo the next time he comes around and thus fulfill, in part, a dream we had so many years ago. Their music is timeless and although I have current artists that I listen to and watch in concert, the Beatles, both as individuals and as a group, changed the world of music forever. This book will end up a necessity in the home of every Beatles music lover; it will settle arguments, put your mind to rest at 3am (what was that lyric?) and sometimes just give you a little ditty to sing in the shower when there's no one else at home. Enjoy. I certainly did.
