2 of 2 people found the following review helpful. Well packed and in and even better conditionBy Gayle CrabtreeWhy the book was listed as "acceptable" is beyond me. The pages of the book are in almost-new condition. Yes, there is some wear and tear to the outside but it is within the normal bounds of use. The the binding is not affected. All pages are secure. There are no stray marks. The book was well packaged. If this seller offers an item in the future that I need, I certainly won't think twice about purchasing.3 of 3 people found the following review helpful. Vary unsatisfiedBy prodexsI have two complaints.1) I purchased this book 'With Reader' explicitly which was affirmed in the label. It is, however, not 'With Reader' and I didn't have time to return it seeing as though I started classes the same week. This mistake is understandable considering it may be insignificant to some but I am still disappointed.2) Although this book

was used, there was also no indication in the description that a half inch was CUT off both the front and back covers of the book. 5 of 5 people found the following review helpful. Great For Students and General Public By Rinji I had to buy this book for one of my classes at school and it turned out to be one of my go to books for all of my classes. If you are trying to get a good handle on writing papers or how even to make a good impression in a resume this book is great. It may seem a little pricey, but it is a book that you can use for the rest of your life so it's worth it.
