Bentley Collection BookBy MJKI am satisfied with the Bentley Collection Guide for Longaberger Baskets. I just wish the guide would have followed through to at least 2010. It will be a little expensive to request on line each item that I need priced. This book was very helpful.1 of 1 people found the following review helpful. Great Book!!!By SharonThis is so helpful in identifying baskets but the prices are totally off. That may be a geographical thing though. Love that it gives you the dimensions so that you figure out exactly what you have.

A guide to collecting Longaberger baskets. Includes basket information, history, market values, identifying marks, little known facts and hundreds of color photos.
