Barbara Taylor : The Big Bug Book before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Big Bug Book:

0 of 0 people found the following review helpful. Bug Book By Andrea Knight I wanted the larger version. The content of the book is wonderful. It will be a great gift for Christmas. 2 of 2 people found the following review helpful. Great Bug Book!!! By Pamela L. Barnett My daughter is doing a bug project for school, and the book was perfect. She refers to it constantly for information and it helps her to identify the bugs she has collected.

Stunning picture sequences zoom in even closer revealing the metamorphosis of a butterfly, how a spider spins its web and a wasp community building their nest.
