Ronni L. Gordon, David M. Stillman : The Big Red Book of Spanish Verbs, Second Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised The Big Red Book of Spanish Verbs, Second Edition:

35 of 36 people found the following review helpful. Fantastico!By Joseph FuscoLike several similar titles, this book has conjugation patterns for every regular and irregular verb. What sets it apart is the terrific CD-ROM which comes with it. The CD-ROM contains hundreds of exercises which you do on the PC--many of which are for listening comprehension. There are also sound files for phrases using the "Top 50" verbs which can be downloaded to make your own audio CD as well as put on a MP3 player. All of the phrases are marked on the page for the particular

verb. There is an amazing amount of material in the book/CD-ROM combo--as much as in many programs which are far more expensive and far less convenient to use. It is the best verb book out there for that reason. 6 of 6 people found the following review helpful. Very practical book

After looking at the contents of this book, I realized what was missing from my Spanish studies. An acquaintance with verbs beyond conjugation is required. This book fills that need. I plan to purchase an additional copy for a friend.
