Joel Whitburn : The Billboard Book of Top 40 Hits (Billboard Book of Top Forty Hits) 8th Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised The Billboard Book of Top 40 Hits (Billboard Book of Top Forty Hits) 8th Edition:

7 of 7 people found the following review helpful. Brand new 8th edition..... another gem from Joel WhitburnBy Paul TognettiHot off the presses!!! If you are a record collector or music buff and have never owned any of Joel Whitburn's terrific books you should latch onto this one right away. The price is right and you will be introduced to a great resource. This latest version of "The Billboard Book of Top 40 Singles 1955-2003" contains every single tune to make

the Billboard Top 40 pop charts for the past 48 years!!! Some people will use the book as nothing more than a checklist for their collections. But most collectors especially enjoy the biographical information provided on each and every artist. There is simply a wealth of information packed into every Joel Whitburn book. Now I have owned several of Joel Whitburn's popular Record Research editions for many years. For those who have never seen Joel Whitburn's books before "The Billboard Book of Top 40 Hits 1955-2003" will serve as a kind of introduction to the entire format. If you enjoy this book you just might be tempted to order one or more of the others. The Record Research books are generally hard cover and contain even more comprehensive chart data for your information and enjoyment. These books are not cheap but are considered to be indispensable for both disc jockeys and serious collectors alike. In the long run I have found any book from Joel Whitburn to be well worth the investment. Give this one a try and see if you don't agree. 0 of 0 people found the following review helpful. "This Book is AWESOME!" By CG This book is GOLD! I own a copy and have given three as gifts and the emails/calls I get once delivered all sound the same: "This is AWESOME!" (I'm grinning as I type.) You'll open this book looking for one piece of information and will find yourself sitting there 10 minutes later still engrossed. Listen to and heed this warning: DO NOT PUT THIS BOOK IN YOUR BATHROOM! Guests will go in and you won't see them for hours. You'll discover things about songs/performers you love that will blow your mind. Like the fact that The Who have only had one Top 10 song that peaked at #9. - Wait, WHAT? If you're a Pop music fan this book is FANTASTIC! It covers Top 40 music between 1955-2003 so if you're younger you might want to opt for the 9th edition (which contains info through 2009) but either way, buy this book. If you're a music fan in ANY way at all (casual listener or die hard historian) you'll be glad you did. 0 of 0 people found the following review helpful. Five Stars By Customer pleased with purchase

Provides complete, cross-referenced information for all songs and artists to make the Top Forty of Billboard's Hot 100 singles chart from 1955 to today.

"An essential reference that can quickly tell you everything from how many No. 1 hits Roy Orbison had (two) to the name of the group that did "I'm Too Sexy" (Right Said Fred)." - Boston Herald; "I love paging through it, looking for songs I know and songs I should know." - Keyboard "About the Author Joel Whitburn, the foremost authority on charted music, has published nearly eighty books based on Billboard charts both for the trade market and for his own mail-order company, Record Research, based in Menomonee Falls, Wisconsin.
