Not all pieces are listed but as many have said before, the internet is making these types of books obsolete. I was able to find more definitive answers to my Cast iron questions online. But it is a fun guide to look through. And its looks good on the shelf.1 of 1 people found the following review helpful. cookware and I need all the help I can get and this appears to be an outstanding reference tool in helping to guide me in the right direction, seems a bit pricey though.

Cast iron cookware is an increasingly hot item in the antique marketplace. Collectors are scouring antique shops, shows, and flea markets searching for treasures to add to their collections; and hunting for more information about the products' history and manufacturers. In response to this growing demand, David Smith and Chuck Wafford have created another authoritative guide to collectible cast iron. This book continues where *The Book of Griswold Wagner* left off--illustrating hundreds of items not included in the previous book. With over 845 photographs of cast iron pieces from the Wagner, Griswold, Lodge, Vollrath, Excelsior, and Martin manufacturing companies, this book delves into the histories and products produced by these manufacturers. Complete with pattern numbers, catalog list numbers, price guide, index, and much more; this book is a must-have for all cast iron cookware collectors.

About the Author David G. Smith, the "Pan Man," resides in Perrysburg in western New York State. He is both a collector and dealer of cast iron cookware. Chuck Wafford, or "Cast Iron Charlie," lives in Oregon. He is a former flea market owner, nationally known Griswold collector, consultant, and appraiser.
