right things. I would come away feeling really confused and wondering what they are looking for. After reading the book I know why I didn't get a job on my last interview and it's obvious that if I had read it before that interview I would have been more successful. I did not realise that they had undercover people so this was frightening, and I also had no idea that the interviewers had secret criteria that we don't know about. These are discussed in detail and there are many strategies to help you avoid being eliminated by them. There are many shocking revelations in the book, but the section that surprised me the most was regarding the icebreaker session. I always thought it was a good thing to appear extrovert and chatty so I always made an effort to come out of my shell by asking and answering as many questions as I could. I had no idea that this could be a bad thing and get you eliminated. The book tells you how to deal with this so that you can stand out and be seen, but not so that you overdo it. I was also pleased to read some of the questions and answers and formulas that are included in the back of the book. I've not made it to the final interview yet, but am glad that I will have a formula or two to work with when I do. I did hesitate because of the cost, but I am really glad I took the plunge and got this book because I feel I have gained a lot of knowledge from reading it.

Its amazing how competitive it is to become a member of an airlines cabin crew. The book mentions that the success rate is around 1-2% and that one airline had 100,000 applicants for just 1,000 jobs! With statistics like that against you, you should get all the help you can! With so many applicants, the airlines stoop to some very questionable practices to make sure they are hiring the right person. Their techniques vary from spies amongst the applicants to silent treatment during interviews. My personal favorite was that in order to make sure the applicants were prepared, they handed out green and red pens to people that hadn't bought one. Anyones application was written in these colors was immediately rejected. Whilst the above is fascinating and definitely important to be aware of, for me the most important part of the book is in the interview technique. This includes everything from telephone interviews to the dreaded group interviews and discussions. This book gives you a huge amount of insight into what the airlines are looking for but also strategies to manage yourself throughout the process. In such a competitive industry, you really need to get as much help as you can. Caitlyn Rogers has done a fantastic job of keeping this book both interesting and informative. I now feel a lot more comfortable with my upcoming interview. If you're looking at this book, I assume you're probably in a similar situation. Good luck!

Hello everyone, I have recently purchased the 5th edition of this book and I just wanted to ask if we could take a look inside the table of contents of the 6th edition. For some books, this option is available and it's called "look inside". Is it possible for you to enable it for this book as well? I am interested in purchasing it. Thank you very much!

Are you ready to jump start your dream cabin crew career? What if you discovered that there was a simple step-by-step process that could make your airline dreams a reality? What if the next time you attend an interview, you had a clear blueprint to follow? and what if that blueprint gave you the insight to what recruiters are really looking for? You see, the reason most people fail at the interview is because they don't know the right steps to make their dreams happen, they don't take the time to prepare for the interview and they don't understand what it is recruiters are seeking. **HERE'S THE GOOD NEWS:** Your dreams are totally possible when you follow the right steps and have the right knowledge. **AND THE EVEN BETTER NEWS:** Your dream airline career is much more attainable than you realise. The Cabin Crew Interview Made Easy is the ultimate step-by-step program that will guide you through the entire cabin crew selection process to ensure the highest probability of getting your dream job. Every aspect is described in detail, complete with numerous examples and tips. You will discover exactly what interviewers really want and look for in an applicant and how you can demonstrate both the desired traits and skills necessary to get an edge and land the job of your dreams. These are the tools that I personally used to land my own dream job working with Emirates Airlines and Virgin Atlantic, and now I have created this Jump Start Program to help you live your dream too. Included in your Jump Start Guide: A complete step by step blueprint covering each major phase of the hiring process Three sure-fire ways to create a killer first impression How to avoid the most common and costly application mistakes A hidden "twist" that Airlines use and that you must know The truth about what assessors are looking for The 7 heavenly virtues to win over any panel of recruiters Sample answers to the trickiest of questions How to use the concept of the S.A.R.R formula to craft your own answers Proven techniques that will make you stand out as an informed candidate Quick strategies to stand out, solve disagreements and avoid being alienated during the group assessment and so much more The information packed into this guide is universal, revealing how airlines screen and hire all across the world, from the largest international carriers to the smallest national operators. So whether you have Emirates, Virgin Atlantic, Qantas or American Airlines or any other carrier in your sights, this Jump Start Guide will help you achieve it. Up until now, airlines have made it super hard for people to achieve their dreams. That's part of what makes achieving it feel so darn special. When you receive that coveted golden call welcoming you on board your new journey, and you can finally call mum and dad to reveal your news, you'll be insanely happy living out your dreams every day as you fly to new and exciting destinations and meet tonnes of new friends along the way. So let's get started, it's time to live your dream.

If you are looking for a job, virtually any job, this book is a must read for you. Although the book is written for potential airlines cabin crew positions, the content is an excellent resource for most jobs. If you are an applicant for cabin crew, Ms. Rogers presents a thorough and well articulated set of tools for you. She provides a complete process to follow to insure the highest probability of getting the job, from preparing your resume and cover letter, to the types of interviews, complete with questions, and how to successfully close out the process. There are questions the applicant can expect in a variety of topics, all relevant to the process. There are sample letters and resume, complete with the best templates for achieving success. During my law enforcement career, I was the Chief of Police, and among the responsibilities of the job was the recruiting and hiring of both commissioned and civilian personnel. This would have been an outstanding reference for us. This book is a powerful guide for a far more comprehensive set of job seekers, and I give it a very strong endorsement. Well done Ms. Rogers, well done. You are to be commended for this excellent work
