So far I have gotten 3 autographed photos from celebrities. I am eagerly awaiting more. This is the best celebrity address book I have ever gotten. I have been collecting celebrity autographs for about 10 years now, and this is by far the most extensive and complete address book out there. However- if you are looking for the home addresses of celebrities- you will be out of

luck in this case. Most of the addresses are for their agents/talent agencies/casting companies. I would highly doubt that there is a book which has celebrities home addresses. However that would be cool. 10 of 12 people found the following review helpful. Best Address Book Ever By iReview65 I've purchased address books to the famous for years, and this is the best by far. There's virtually no address missing from the book. It appears very current and I trust the accuracy to run quite high compared to other books out there. 2 of 8 people found the following review helpful. 0 for 1 By C. Rupp I lost all trust for this book, the first request I sent out came back "Return to Sender- Address Unknown", I won't waste any more time with it, it's going in the trash tomorrow, it would have been quicker to flush money down the toilet then to buy this book!!!

The addresses in this book are the best addresses at which to reach the stars. Some addresses are the stars' agents, managers, publicists, or personal assistants.
