By Susan I've been mailing a cookbook to my daughter about once a month.....sort of like "Christmas around the year" to avoid the terrible rush in December. I ordered this from .com and

had it shipped directly to California without seeing it myself, so I was a little apprehensive about the quality and content. I was thrilled to learn that this is now my daughter's F-A-V-O-R-I-T-E cookbook. (She called me, raving about it!) She has already made the "cover cake" which took a lot of time but was not too difficult for a non-professional cook. The book is filled with beautiful photos and incredible recipes.

A guide to chocolate includes the history of chocolate throughout the world, innovative ideas for cooking chocolate, and entrees that include chocolate, as well as delectable desserts, cookies, candies, and cocoas. 25,000 first printing."
