I love the pictures (I'm quite visual person) and it's rather comprehensive. The only thing is....it's probably not for the health conscious, but then most dessert recipes aren't exactly the most healthy foods, are they? Easy to follow instructions too.0 of 0 people found the following review helpful. Five StarsBy sandra

Introduction I am asked weekly, "Why did you get into the culinary field?" Simple answer, "I never go hungry." Plus, "I make people happy." When I get on a plane for a long trip I try not to tell the person next to me what I do or I will be hearing about how their grandmother made the best cakes. For 6 hours! Everyone has a food story. Food makes people happy. Pastry even more so. I cannot think of anything negative to say about being a pastry chef. You make birthday cakes, not death cakes. You create wedding cakes, not divorce cakes. See? It's all happy! From my first pastry job to my last, at Disney, I am the happiest when I'm in the kitchen baking. I assure you that many of the recipes you make from this book will become family favorites. Many already have with my students! Baking is therapeutic. It feels great to make a crust, cake or dessert from scratch. I'm the first to tell you it takes time. You won't be able to create a dessert in 5 minutes. If you're in a hurry, then by all means, purchase a dessert. If time permits, however, make some pastry. You will not only taste the difference, but you'll also know exactly what's in your finished pastry. George Geary
