It explains different techniques simply and clearly. There are excises and examples to follow. It also describes materials and makes recommendations about which ones work best. 0 of 0 people found the following review helpful. If you only buy one book. . By shantidevi Buy this one. I browsed this at the National Gallery of Art gift shop, their one selection on watercolor technique. It's a real gem. Detailed and encyclopedic in many different foundation elements of watercolor. 5 of 5 people found the following review helpful. The complete Guide to Watercolor by DK By marijcalyn I originally bought this book for myself in a bookstore. It was the perfect tutorial for a beginning watercolor artist! I ordered a second copy of it from and had it shipped directly to my daughter, who has always had an artistic bent. Having already seen my copy, she was thrilled to receive her own! I highly recommend it for it's ease of use and clarification of techniques, especially for novices like

myself.
