**Marc A. Dorio, Alpha Development Group : The Complete Idiots Guide to Getting the Job You Want** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Complete Idiots Guide to Getting the Job You Want:

3 of 5 people found the following review helpful. Enlightening and Practical  
By A Customer I bought this book as I found myself in a situation where I am having a job interview for the first time in the US. The book explains characteristics of the current US job market as well as how to deal with it. It is useful anyone in any stage of job hunting, and I cannot think of a better book.  
1 of 4 people found the following review helpful. Focus  
By A Customer This book will keep you focused on the end result getting the job you want. It will show you step by step instructions on what to do and when to do it. This book would also be a good guide to goal setting since it keeps you focused on the final goal getting the job you want.  
7 of 9 people found the following review helpful. Not for beginners!  
By A Customer I didn't find this book very useful. I found the focus more for some changing jobs rather than trying to get a job in the first place. It would be a good reference for someone "stuck" in a job they don't like.

Getting a job is one thing, but getting the job you want can be a challenge. This user-friendly guide helps readers figure out what kind of job is right for them, then takes them through sure-fire methods of finding and landing that job--"networking", resumes, interviews, contacts, and more. Line drawings.
