By MikalI adore this Kylie Minogue Book- it contains many wonderful photographs, lots of interesting written text, and it's current! This book covers Kylie's entire career in chronological order. The biggest surprise for me with this book is the extensive written text, it contains lots of interesting information that I didn't know- it's a great read! It contains lots of photographs of Kylie from over the years, it really charts her evolution in style. This book is so much more than a coffee table book! 3 of 3 people found the following review helpful. Worth it for the photos alone! By A. BansakGreat history of her musical career! If you're a Kylie junkie, you'll want this book for the photos alone! So much stuff I've never seen before, particularly from her early days! 0 of 0 people found the following review helpful. Five Stars By AtomicjhGreat Book!!

The Complete Kylie Minogue gives the most definitive overview of the performer's career ever published. From her days as a young TV actress and movie star through to her worldwide domination of the music charts as one of the globe's best-selling, and best-loved, pop stars. More so than any performer, Kylie has been an expert at changing her look, from innocent, fresh-faced teenager to confident, sexy showgirl. But Kylie is more than just an image, she is a worldwide phenomenon. The book is the very first to catalogue Kylie's multi-faceted career and her three decades of unparalleled success. Published to coincide with the 40th anniversary of her first single The Loco-Motion, this gorgeous hardcover is a must for any Kylie fan!
