From Brand: Auricle Ink Publishers : **The Consumer Handbook on Hearing Loss and Noise** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Consumer Handbook on Hearing Loss and Noise:

The two most common causes of hearing loss are aging (presbycusis) and noise exposure. While getting older is not

preventable, hearing loss from noise is preventable. As Dr. Chasin poses in the Introduction, "What can be done today to prevent hearing loss tomorrow?" This book will provide many of the answers sought by those who have endured dangerous noise levels, and will address what you can do today and tomorrow. Marshall Chasin, Au.D., Editor; (2010) 224 pages; hard cover
