**Christine McFadden : The Cook's Encyclopedia of Chocolate** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Cook's Encyclopedia of Chocolate:

0 of 0 people found the following review helpful. A must have book.By connieIf you love chocolate you will love this book.3 of 3 people found the following review helpful. GREAT BOOK FOR CHOCOLATE FANSBy chocolte crazyThis book contains wonderful recipes. It is the best cook book I have ever purchased on chocolate recipes and I have 5 others.1 of 2 people found the following review helpful. If you plan to bake chocolate desserts, you will want to purchase this bookBy Linda MorrisThis book has everything relating to chocolate desserts. It does not include recipes on entrees that include chocolate or chocolate drinks but I knew that before I purchased the book. If you're looking for dessert recipes on chocolate cakes, cookies, candy, hot, chilled or frozen desserts, sauces and icings, you'll find them all. Many of the recipes include pictures demonstrating the process from start to finish, with a large picture of the final product. I purchased a "used" copy that was accurately described as being in very good condition. A very good purchase.

Things you never thought to do with chocolate, things you have always wanted to do, and a primer on how to handle chocolate, this book has it all!D-11
