Carla Capalbo : The Cook's Encyclopedia of Italian Cooking before purchasing it in order to gage whether or not it would be worth my time, and all praised The Cook's Encyclopedia of Italian Cooking:

5 of 5 people found the following review helpful. Everything looks as good as the photo, and tastes like Grandma made itBy Customer3 couples spent ten days in a house in Italy - we cooked all our meals, using this cookbook. Every meal was better than the next, even my first try at homemade pasta. Everything turned out like its picture, and we kept saying, "This tastes like what my Grandma made!" When we got home, we each bought a copy, and several for gifts. Don't let out-of-print stop you - get a used copy and enjoy! Simple ingredients, simple instructions, fantastic taste. It's printed for American cooks, in American/English measurements.1 of 1 people found the following review helpful. This is the real deal!By Giovanna D.I like this book very much. I'm from Northern Italy and I found these recipes to be very authentic, and very easy to follow.I had received my copy as a gift, and I bought it for both my son and my daughter.I would recommend this book over many "fancier" ones.1 of 1 people found the following review helpful.

Great cookbook at a great priceBy Diane L.Great cookbook at a great price! Just came back from Italy. This cookbook has very authentic recipes and is easy to follow with great photos of each dish.
