In this time I have made many of the soups, and everyone is more delicious than the last. I have bragged about this cookbook to many people and given copies as gifts many times to friends or family for whom I have made soups from it that they loved. BUY THIS BOOK IF YOU LOVE SOUP. There are recipes from almost every ethnic group and region of the world. It is my favorite cookbook, and if I ever lose it for some reason, I would search out another copy! All of the "Cook's Encyclopedia" series are wonderful, and I too buy them whenever I see them, regardless of the cuisine they are about. Each recipe tells a bit of the history of itself, the ingredients are authentic to the ethnicity of its origins, the books are printed on good quality paper, with excellent instruction and illustrations. My favorites are the Leek and Thyme soup, the Noodles in Soup, Hot Sour Shrimp Soup with Lemongrass, and the Chaing Mai Noodle Soup. I can't say enough about this soup cookbook. Buy three copies; one for yourself and two for soup-lovers in your life.0 of 0 people found the following review helpful.
