**Lorenz Books : The Cook's Encyclopedia of Spices (Cook's Encyclopedias)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Cook's Encyclopedia of Spices (Cook's Encyclopedias):

0 of 0 people found the following review helpful. Five Stars By *connie* Just love it. 0 of 0 people found the following review helpful. Three Stars By *Stephen E Baker* Lots of good info 8 of 8 people found the following review helpful. Spicy information! By *Deborah Allhiser* I thoroughly enjoyed, and still enjoy, this book! I was looking for a book with spice information to have available for my customers - and this book fit the bill. The book has a "clean" look, with clear descriptions of the many spices included in its pages. I found the information to be thorough, and the pictures are fantastic! This book is loaded with information on individual spices, but it also gives recipes for spice combinations as well as recipes from breads to desserts that include a variety of spices that are both common and a little more exotic. "The Cook's Encyclopedia of Spices" had what I was looking for, and then some, without being overwhelming. I

feel that any chef, or weekend cooking warrior, would find this book helpful.

A comprehensive practical guide to choosing and using spices as well as over 100 classic and contemporary recipes from around the world.
