I have made about a dozen of the dishes and so far they are easy to prepare, delicious and healthy. I am not a full vegetarian by any means, but I eat mostly veg and this book has positively effected my cooking habits tremendously. For every cook who likes easy to prepare and delicious meals I can't recommend this enough.0 of 0 people found the following review helpful. Four StarsBy Linda HolmerIt was a gift and I do like Cooks cookbooks3 of 3 people found the following review helpful. So many good recipes!By Shanna AOne of our best friend had a copy of this book, and I got tired of always have to ask him for photo copies of the great recipes he was fixing for us. So I bought my own copy. There are 3 or 4 pages we turn to a great deal, and look forward to trying others.

A superb collection of over 200 recipes illustrated step-by-step
