Ella A. Kazerooni MD MS FACCP, Barry H. Gross MD FACR FACCP : The Core Curriculum: Cardiopulmonary Imaging (The Core Curriculum Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Core Curriculum: Cardiopulmonary Imaging (The Core Curriculum Series):

Introducing a brand-new volume of The Core Curriculum--a series of textbooks that are indispensable as both guides

for radiology residents' rotations and study tools for written boards or recertification exams. Each volume of The Core Curriculum examines one key area--such as ultrasound, neuroradiology, musculoskeletal imaging, cardiopulmonary imaging, head-and-neck imaging, or interventional radiology--and focuses on the essential information readers need to do well on the boards. The user-friendly presentation includes chapter outlines...tables...bulleted lists...boxed text...margin notes...key review points...hundreds of illustrations...and an easy-to-follow layout.
