**Scott Beatty, Phil Jimenez : The DC Comics Encyclopedia: The Definitive Guide to the Characters of the DC Universe** before purchasing it in order to gage whether or not it would be worth my time, and all praised The DC Comics Encyclopedia: The Definitive Guide to the Characters of the DC Universe:

0 of 0 people found the following review helpful. Not all that happy.By Antonio De La HozNot really what I expected. Not in the shape I was hoping for, very poorly treated by the previous owner.0 of 0 people found the following review helpful. ... my tween son who loves superheroes it's a really good read full of interestingBy April Prince-CharlesPurchase this for my tween son who loves superheroes it's a really good read full of interesting facts0 of 0 people found the following review helpful. A classic expansive detailed overview of the heros villians in the dc universe which is an essential character referenceBy PeppercornWhat can be said about this encyclopaedia that hasn't already been said? I had the previous 2004 edition I was thrilled to have that one, this new expanded encyclopaedia is spectacular. This book is exhaustive on referencing over one thousand DC characters, origins, significant events in DC

mythology. It provides a definite order to the pandemonium of DC characters and history in a most visually acceptable way. The encyclopaedia focuses on teams, places, weapons, vehicles, battles and everything that is DC. Emphasised in more brand new pages are the icons of DC mythology like Batman, and Superman which have been around forever in that they are rich in characters even of the most obscure and overlooked forgotten individuals. The art work is so legendary enviable that it's beyond the norm of realistic in that all the characters seem to jump out of you in the book in all directions. The cover is a masterpiece of expansion in that Alex Ross is the most artistically talented artist ever to have imagination and flair that go beyond the norm. This is a book for true DC aficionados that no true DC lover can be without it will become a collector's item because everything about it is fabulous. Not only does it supersede the 2004 edition but it also has an added 48 brand new pages in it with expanded detail on some characters of a more pronounced nature in it with updates and new storylines including the recent Infinite Crisis story. This book will be even more successful than the previous one. An essential DC mythology and character reference of all the characters good or bad in the DC universe.

As a unique, one-volume encyclopedia of more than 1,000 characters created by DC Comics, this is the book that all comic book fans have been waiting for! Featuring some of DC's most creative artists and heroes and villains from the world famous to lesser known one-offs, this thrilling, one-of-a-kind guide has comic book history exploding off every page.

From Booklist This copiously illustrated encyclopedia chronicles more than 1,000 DC Comics characters from the 1930s to the present. Arranged alphabetically, each entry gives the first appearance, status (hero, villain, etc.), real name, occupation, height, weight, and eye and hair color of the superheroes or supervillains. Special abilities and superpowers are also listed along with ample cross-references to other comic characters or superleague affiliations, such as the L.E.G.I.O.N. cosmic peacekeeping force. The biographical entries make fascinating reading in alternative history. For example, the Crimson Avenger served in a league called the Seven Soldiers of Victory during World War II. Afterward, he was sent backward in time. He came forward in time and discovered that he was struck with a terminal disease. After his death, an unknown woman purchased two guns that had belonged to him. These guns transformed her into Crimson Avenger II, who became an agent of vengeance and execution. Of course, famous characters such as Wonder Woman or Batman are included. But lesser-known characters, such as Superman's college flame, Lori Lemaris (a mermaid), are also listed. The colorful design makes this book a pleasure to browse. Special two-page features, such as "Amazing Weapons" and "Romantic Moments," are interspersed with the biographies. Recommended for public libraries with active comic readership. Jack O'Gorman Copyright American Library Association. All rights reserved "... it's hard to top this encyclopedia." -- Winston-Salem Journal "Fabulous artwork and pictures of more than 1,000 famous comic book characters fill this classic that will thrill all collectors." -- Detroit Free Press
